**Website:**

*Dear Patient,*

*The health and wellness of our patients and service member team are always our top priority, especially amid peak flu season and in light of the recent coronavirus pandemic. When you visit our offices, rest assured that we always follow state guidelines for cleanliness and sanitization, including handwashing with soap or hand sanitizer in between every patient visit. Our instruments are disinfected between each use and sterilized when appropriate following OSHA standards. In keeping with the current outbreak, we are also maintaining social distancing by calling patients in from their car for their visit to avoid waiting the office area.*

*We also encourage our team members to stay home and see their primary health provider if they feel unwell. If you exhibit any symptoms of a respiratory infection or have a fever or sore throat, please call our office and we will be happy to reschedule your visit.*

*We can now offer the option of a telehealth visit for our established patients.*

*We enjoy taking care of our patients ophthalmologic needs and look forward to your next visit with us.*

**Phone confirmation calls:**

*Our office is still open for patient care. We continue to do our best to disinfect our rooms and equipment in between each patient visit following the appropriate guidelines. We are practicing social distancing by eliminating our waiting areas and calling patients in from their car. You can reschedule your visit at a later date if you wish. We are also now able to offer a telehealth visit for our established patients. We look forward to seeing you at your next visit with us.*
